

TESTIMONIALS

It is a pleasure to work with Day Cooper Day and their excellent team regarding all matters SSAS. Their detailed expertise, flexibility, and high quality of service is a standard bearer for how the financial services industry should be. Our clients are continually impressed with how smoothly we can complete quite complex arrangements through their SSASs, and DCD are a key part of being able to deliver that. Highly recommended.

Mark Welsh, Prydis Wealth Ltd

I have worked with DCD now for five years plus, they are my go-to SSAS provider as their service, technical support is second to none. They provide me with excellent support and are brilliant dealing with my clients.

Gavin Hill, Aesir Wealth Ltd

We have worked with Day Cooper Day for over 9 years. We didn't expect to have much use for a private Pension Trustee firm, but fast forward to today and we have multiple schemes covering a wide range of client needs. The Team at DCD have always been efficient, helpful, friendly and most of all willing to look at all client requirements even if they seem a little impossible. I would recommend DCD to anyone who needs a professional and service driven Pension Trustee.

Gordon Crothers, Attain Wealth Management Ltd

I have worked within the SSAS industry for 18+ years, including working for two SSAS administrator firms. Without doubt Day Cooper Day are one of the best SSAS providers in the country. They are responsive, professional and have an overarching desire to help their clients. They do not have to respond quicker than the service level requirements they set themselves, but they do more often than not, which can be very reassuring, especially when it comes to chasing pension transfers and third parties. I would absolutely recommend them to run SSASs for my clients.

John Moore, Chartered Financial Adviser

I've found Day Cooper Day to be exceptional SSAS providers, and by far the best we've used in the industry. Miles ahead of their competitors, and in an industry where bespoke client services is lacking, they manage to deliver this with ease. I rarely think of them a separate company, but more an extension of our firm, because we are bound by our drive and focus on delivering for our client. They have the answers before you have the question and are able to stay one step ahead. I can't recommend them more.

Mandy Dale, Hanbury Wealth Management Ltd

We have been working with Day Cooper Day for a number of years now and have always found them to be exceptionally thorough and have excellent technical knowledge when speaking about cases and potential investments within schemes. They always have a can-do attitude and will look to support, guide and work with advisers to help achieve client's goals.
